Diggin a lot of voyagers recent coin additions. Here are some suggestions for some new additions, these will all be huge in the future and getting them on voyager first will drive many new consumers to the platform. The phantasma soul token, gods, mx, omi, and ridotto

@BuzzFeedNews @FOXTV @CoinDesk @ABC @USATODAYmoney

@USATODAYmoney do a report on @investvoyager and their horrible services to their investors. Not returning emails, closing acct and pocketing shiba token \$. So many more stories out there. @Ehrlst15
